PROFESSIONAL SUMMARY

Full-Stack Engineer building web products since 2019, with the last few years focused on full-stack engineering. Develops secure business platforms, commerce workflows and real-time applications using TypeScript, Next.js, React, Node.js and PostgreSQL. Combines product ownership with backend architecture, access control, payment integrity, SEO and practical automation; delivered a multi-vendor marketplace with 20 vendors and 100 completed orders, and an editorial workflow supporting 40+ published articles.

CORE TECHNICAL SKILLS

Languages: TypeScript, JavaScript, HTML, CSS | Frontend: Next.js, React, Tailwind CSS, Redux Toolkit

Backend & data: Node.js, Express, REST APIs, Prisma, PostgreSQL, database design, background jobs

Security & infrastructure: Authentication, RBAC, resource-level authorization, Paystack, Resend, Neon, Vercel, Git, CI/CD

PROFESSIONAL EXPERIENCE

Marvel Creative Media | WordPress Developer, then Full-Stack Engineer | Nov 2019 - Present | Lagos, Nigeria | https://marvelcmedia.com

- Modernized the company website from its earlier WordPress/PHP-based architecture to a Next.js, TypeScript and PostgreSQL platform; Google began showing sitelinks for the site. Achieved 98/100 desktop Lighthouse performance, 100/100 SEO and Best Practices on desktop and mobile, and GTmetrix Grade A.
- Built an internal CRM for project tasks, milestone creation, notes, assignments and reporting; reduced manual administrative coordination and clarified staff responsibilities through role-based project access.
- Developed an AI-assisted editorial pipeline that researches topics, drafts and refines articles, checks language, applies SEO workflows and supports publishing; 40+ articles published, cutting the time per article from 2+ hours to an estimated 5-10 minutes from research to publication.
- Engineered server-side access controls, secure customer enquiry workflows, content administration and transactional email integration to consolidate business operations in one platform.

Proxynet Communications Ltd | WordPress Developer | Jun 2019 - Nov 2019 | Lagos, Nigeria

- Built and maintained responsive CMS-driven business websites and custom themes.

Elite Logistics and Development Ltd | WordPress Developer | Jan 2019 - Jun 2019 | Lagos, Nigeria

- Redesigned and maintained responsive business websites with stakeholders.

SELECTED ENGINEERING PROJECTS

MarvelMarts | Multi-Vendor Commerce Platform | https://marvelmarts.com

- Designed and built solo: a role-based marketplace supporting 20 vendors, 30 listed products and 100 completed orders, with customer, vendor and administrator workflows.
- Designed vendor-isolated order processing and Paystack payment verification with duplicate-processing safeguards, improving transaction correctness and preventing cross-vendor order interference.

- Implemented double-entry accounting foundations, vendor payables and reconciliation workflows, plus reliable background processing for asynchronous operations.

ApexTraders | Simulated Trading Platform (Active Development) | https://apextraders.vercel.app

- Developed a React/Express trading platform with live market-data integration, PostgreSQL-backed services, authenticated realtime communication and simulated trading/tournament workflows.
- Strengthened backend access and release safety through API rate limiting, proxy trust controls, separate staging infrastructure and validated end-to-end staging workflows.

Rilaebu | Verified Housing Platform (Active Development) | https://rilaebu.vercel.app

- Designed a security-first property platform and implemented tenant/landlord registration, protected account experiences, email verification and password recovery with Better Auth and Resend.
- Developed private property-ownership/authority evidence handling with authorised, audited access to sensitive documents, supporting a traceable verification process.

EDUCATION

BSc, Entrepreneurship and Business Management | National Open University of Nigeria | Awarded 2026

SELECTED TRAINING

The Ultimate React Course (Udemy, 2026); Advanced React (Coursera, 2023); Advanced CSS and SASS (Udemy, 2023); JavaScript Application Programming (Alison, 2022)
